# CENTRAL OREGON MARKET OVERVIEW

Welcome to Central Oregon where the commute times are short and breathtaking views await you at every turn. The region features dramatic snow-capped mountain ranges and high desert plateaus within Deschutes, Crook and Jefferson counties.

Located halfway between San Francisco and Seattle, the hottest small metropolitan market in the U.S. is Central Oregon. In the last decade the region has seen some of the highest sustained GDP growth, job growth and population growth. With these factors in mind, The Milken Institute has named the region the best small metropolitan in the nation three years in a row – an accolade no other location has ever received.

Central Oregon is pulling extraordinary talent and capital, fostering a diverse and highly entrepreneurial business ecosystem. Lured by natural scenic beauty and big city amenities (world-class health care, education, dining) without big city costs or hassle, people are learning that having a true work-life balance is possible. Employees are happier; companies are more innovative and capital-efficient. All in a region dominated by small to mid-sized firms that compete globally – and win.

## WHY CENTRAL OREGON?

Central Oregon has been among the fastest growing regions anywhere in the U.S.

In-migration has been the dominating factor in the region's growth with approximately 7,000 new residents moving to the area from all over the country every year. At the same time, the region's ability to attract young families has resulted in strong birth rates.

When compared against its neighbors to the north and south, Oregon's overall business costs rank significantly lower. Average electricity rates, natural gas rates, state and local sales tax rates, and business tax climates in particular are significantly lower than the national average.

For a relocating business, Central Oregon has a reputation for welcoming new companies without sacrificing workforce, talent, quality healthcare, transportation, or infrastructure.

**GROWTH**

The combination of a collaborative culture, a supportive attitude among government and economic development agencies, plus a location that attracts talent and investment all help Central Oregon compete nationally.

***"BEND ENJOYS A TRULY COLLABORATIVE ENVIRONMENT.  
Everyone is not only supportive of each other, but excited to see one another grow. We share the same trails, rivers and slopes and ultimately share a similar vision to help Bend succeed."***

# SERVICES AND INFRASTRUCTURE

## Utilities

Because most of our region has been built new in the past two decades, our telecommunications infrastructure is one of the Northwest's most technologically advanced, meeting business and telecommuting requirements for capacity, redundancy, and reliability.

## Education

Central Oregon is well-recognized for its high level of education, with some of the best K-12 public schools in the nation. In 2018, the Bend-La Pine school district's average SAT scores surpassed the national average by over 100 points. Additionally, higher education opportunities abound. From Oregon State University-Cascades ongoing expansion, to Central Oregon Community College's four campuses in the region, there are opportunities for all to obtain a quality education.

## Healthcare

Top quality healthcare is one of the crown jewels of Central Oregon. St. Charles Health System is the largest healthcare provider in the region, and is also the largest employer with over 4,400 employees across the tri-county area. A network of more than 100 clinics and specialty practices further support the community.

## LIFESTYLE

Central Oregon is blessed with a rare mix of city amenities and restful isolation. It offers the slower speed of a small town with a medical community and infrastructure not normally seen in a region of its size. Additionally, Central Oregon residents maintain a work/life balance that is difficult to achieve elsewhere.
